 - Hans-Martin Foisel, Deutsche Telekom, OIF President
 - Lyndon Ong, Ciena, OIF Technical Comm. Chair
- ◆ 12:00 - 1:15 Lunch
- ◆ 1:15 - 2:00 Lab Tour

Introduction

Welcome:

- Dave Brown, Alcatel-Lucent, OIF MA&E Committee Networking Chair and your emcee for today's event
- Welcome to OIF Carrier Lab Day
- Today we are featuring the OIF's 4th Worldwide Interop Demo "Enabling Broadband On-Demand Services"

Logistics:

- Agenda overview – keynote, live demo, lunch, lab tour. OIF event concludes at 2pm.
- As we are filming the session we ask you to hold questions until the end of each segment – use mics.
- Presentations, document and the edited video will be available on the OIF website

What we hope you learn today:

- Hear from a major carrier member – how OIF control plane IAs and interop work enable them to evolve their transport network to meet customer needs.
- See OIF work in action in a live demo of the OIF control plane interface IAs as performed in carrier labs
- And see an active interop lab – get a feel for the commitment to interop testing in terms of real estate, equipment, people and time

Acknowledgements

- The demo participants from Asia, Europe, and the US - 7 carriers, 11 system vendors
- Demo support – Clearpond and VeriLan
- Our hosts from Verizon:
Vishnu Shukla – VTO principal staff member, VZ'z OIF Carrier WG rep and former OIF Board member
Tour Guides/VTO: Mike Lane (tour guide), Nee-Ben Gee (tour guide), Steve Liu (tour guide)
Wang Lee
Lynn Staggs

Introduce our keynote speaker - Vice President of Network Architecture – Dr. Stuart Elby!
