

Optical Interconnect Solutions for CPO:

- Faceplate connector/adapter
- ELSFP Connector
- CPO OE to Faceplate fiber assemblies
- PM fiber assemblies between ELSFP and CPO OE

Faceplate Connector/Adapter

- Maximize the faceplate space with high density footprint
- Meet industry low loss requirements
- Carries 16-fiber per connector
- Adapter for 64-fiber total, 4-port of 16F connectors
- Suitable design for Co-Packaged Optics applications

Fiber Assemblies

- Single mode fiber assemblies for fiber routing between Faceplate and CPO engines
- Available with multiple fiber counts to support both FR and DR types of optics
- PM fiber assemblies for the interconnect between ELSFP and CPO engines
- MT ferrule assemblies with PM fibers meeting ELSFP requirements
